EVOLVE X INVESTS IN ProjectStudio

EvolveX has invested in Project Studio, a AI- native platform founded by Nikhil Kaushik, modernizing project execution for interior design and architecture firms. By replacing fragmented tools with a unified operating system, it reduces delays, cost overruns, margin leakage, and improves control.

Building the Operating System for India's Interior Execution Economy

WHY WE INVESTED

We invested in Project Studio for solving a large, under-digitized interior execution problem through a vertical-first platform focused on workflow efficiency, margin protection, execution visibility, and AI-led automation.

Project Studio sits at the intersection of AI, creativity, and productivity, empowering teams to move faster while maintaining quality and control.

Why it excites us:

- Solving a real, fast-growing need for AI & Voice led execution workflows in Interior projects
- AI-first architecture focused on speed, precision, and scalability
- Strong vision to become a complete ecosystem for Interior Projects
